

The **Department of Geography of the Faculty of Mathematics and Natural Sciences at the University of Bonn** invites applications for a tenured position as

Professor (W3) of Physical Geography

The position is to be filled by October 1, 2021.

Candidates are required to have established an international standing as researchers in the field of vegetation and land use dynamics on a regional and global scale. Furthermore, a theoretical and methodological expertise in Earth Observation is essential. Candidates are expected to contribute actively to the sustainability research at the University of Bonn as well as the development of the departmental research area geomatics.

Able to instruct in German and English, candidates are to cover the full range of physical geography and geomatics in teaching and to contribute to all Geography degree programs. The position demands excellent teaching skills and commitment as well as participation in academic management at all levels.

Close cooperation within the Department of Geography, the Earth Sciences Division, the University of Bonn's faculties and the Transdisciplinary Research Areas (e.g. Innovation and Technology for Sustainable Futures) is of special importance. Furthermore, we expect the new appointee to advance the development of the geoscientific network Geoverbund ABC/J (Aachen, Bonn, Cologne, Jülich) as well as to cooperate internationally. Candidates need to express the willingness to lead the interdisciplinary Center for Remote Sensing of Land Surfaces (ZFL) at the University of Bonn.

Precondition for an appointment at W3 level is a post-doctoral qualification (or equivalent scholarly achievements). Applications are handled according to § 36 of the Higher Education Act of North Rhine-Westphalia (Hochschulgesetz NRW).

The University of Bonn is committed to diversity and equal opportunity. It is certified as a family-friendly university and offers a dual career service. It aims to increase the proportion of women in areas where women are under-represented and to promote their careers in particular. To that end, the University strongly encourages applications from qualified women. Applications will be handled in accordance with the Landesgleichstellungsgesetz (State Equality Act). Applications from suitable individuals with a certified serious disability and those of equal status are particularly welcome.

If you wish to apply, please submit your documents (curriculum vitae, outline of your professional career, previous teaching experience incl. teaching evaluations and research projects, a list of publications along with your five most important publications, copies of higher education diplomas and certificates) as well as a research and teaching concept by October 23, 2020 to: Fachgruppe Erdwissenschaften der Math.-Nat. Fakultät, Universität Bonn, Meckenheimer Allee 176, 53115 Bonn, Germany. Please also send a digital copy of all required documents (as one PDF file) to erdwissenschaften@uni-bonn.de.

After submission, you will receive an email with a link to a supplementary application form.
